A History Of Yorkshire: County Of The Broad Acres

Synopsis

The historic county of Yorkshire lasted for about 1,000 years. Its administrative structure was swept away in 1974, but its distinctive identity is still clearly recognised by its own people and by outsiders. Yorkshire was the largest English county. The three Ridings of Yorkshire covered about an eighth of the whole of the country, stretching from the river Tees in the north to the Humber in the south, and from the North Sea to the highest points of the Pennines. In such a large area there was a huge diversity of experience and history. Life on the Pennines or the North York Moors, for example, has always been very different from life in low-lying agricultural districts such as Holderness or the Humberhead Levels. And the fisherfolk of Staithes or Whitby might not readily recognise the accents, ways or customs of the cutlery makers of Hallamshire, still less perhaps of the farmers of Wensleydale or Craven. In some ways, this diversity makes Yorkshire the most interesting of England's historic counties, a microcosm of the country as a whole. Its variety and beauty also help to explain why Yorkshire is now such a popular tourist destination. Until quite recently people felt that they belonged to their own local area or 'country'. Few people travelled very far, and it was not until the late nineteenth century that the success of the Yorkshire County Cricket Club seems to have forged the idea of Yorkshire as a singular identity, and which gave its people a sense of their superiority. This single volume describes the broad sweep of Yorkshire's history from the end of the last Ice Age up to the present day. To do so Professor Hey has had to tell the story of each particular region and of each town. He talks about farming and mining, trade and industry, fishing and ways of life in all parts of the county. Having lived, worked, researched, taught and walked in the county for many years, he has amassed an enormously detailed knowledge and understanding of Yorkshire. The fruits of his work are presented here in what has been described as 'a bravura performance' by one of the Yorkshire's finest historians. With a particular emphasis on the richness of landscape, places and former ways of life, this important book is a readable, informative and fascinating overview of Yorkshire's past and its people.

Customer Reviews

'This is what is called the broad sweep of history. David Hey was set the monumental task of covering all of it on a single canvas and now, nearly seven years later, he has completed the last detail. In his book you will find Neolithic man, Britons, Angles, Roman legions, Vikings, Norman barons, Civil War strife, the workshop of the world, in a superbly illustrated combination of history derived from documents and from what our ancestors left behind to look at... His book will feed the prodigious appetite for local history and archaeology and family origins.' Yorkshire Post Magazine 'A Triumph of Local History Writing' This book is magnificent (there is no other word for it), fitting both in scale and quality its subject. Ranging from the Stone Age to the 1990s, it is no mean feat to have captured in 140,000 words the essential history of a county that comprises almost one-eighth of England. David Hey, however, rises to the challenge with a bravura performance that sets a new standard for popular county and regional histories. The book is also visually ravishing. Hey's text is graced by around 500 carefully chosen illustrations, many of them high-definition colour photographs specially taken for the volume ...' [review by Malcolm Chase]

DAVID HEY is Emeritus Professor of Local and Family History at the University of Sheffield. His previous books include *How Our Ancestors Lived*, *The Oxford Guide to Family History*, *The Oxford Companion to Local and Family History* and *Family Names and Family History*. He is President of the British Agricultural History Society and Chairman of the Local Population Studies Society.
