The HIDDEN Series: YA Paranormal Romance

Synopsis

Addie wants to make it through high school without anyone discovering her ability. But when a local boy goes missing, she's forced to expose herself to the hottest guy she's ever met, knowing he's the only one that can help her rescue the kidnapped boy. Jake's determined to resist the cute, obviously crazy girl asking for help, but finds he can't when he realizes she knows more than she should. Their alliance reveals more than either could have anticipated, compelling Jake to keep her safe, because Addie's knowledge would get her killed if the wrong people found out. As their reluctant alliance turns into a forbidden love, Addie's dangerous knowledge threatens to destroy them both. Hidden Lies It's been over a year since Addie Michaels and Jake Kincaid met under less than ideal circumstances. They both think life has settled down as Addie enters her second year of college, but when you have a gift for knowing the truth - things don't stay quiet for long. Missing girls on campus have them investigating once again as Addie discounts the idea they are runaways. They discover a more sinister plot is in play and when it strikes a little too close to home they have to trust friends, both old and new, to save them. Read the first two books in the bestselling Hidden Series: Hidden Truths and Hidden Lies. "Unexpectedly sexy." "Addictive." "Anxiously awaiting book three." "I love all the characters, but I have a soft spot for Danny, can't wait to read his book." "This is a story that had me hooked." "Stop what you're doing and read this!" "Intriguing and original."

Customer Reviews

I stumbled upon this series on KU and decided to give it a try. It was outside what I normally read but I still loved it. One of the reasons I loved it so much is because Addie was such a well written strong female lead. In so many books the female lead is said to be strong or independent or amazing but then in the actual storyline she doesn't prove it at all. Addie however wasn't like that at all. Yes she found a guy that she fell in love with but at no point did that become the main focus. In fact Jake never really became the main focus. Both books put Addie in the forefront and she was truly the heroine, not just a woman who helped the hero. And while Addie was the main focus the supporting characters were all equally interesting and compelling. I honestly would love to read books about this amazing group of characters. Addie is a teenage who has a unique gift. She can answer almost any question asked of her. She decides to use her gift to help find a kidnapped boy which leads to a much darker scheme. She meets an undercover cop who helps her discover who she's meant to be.

Omg I definitely love this story of how there is a young adult psychic who forms a tight group to help solve murders. In some cases the people are alive. I wish there were more books like this. It keeps you on your toes trying to guess who did it. I definitely recommend you read it. It is awesome. The mystery of it is contagious.

I was totally taken by this book. I loved Addie and Jake. I loved the premise. I loved the setting. I loved the angst! I look forward to more from this series.

Is it odd that someone wrote a book about what I go through this is creepy buy awesomeAt the same time

Drug deals gone wrong, undercover cops, and a teenage physic this series will keep you guessing.

What a great series! Well-written and fast paced, it was an amazing read. Addie could be my best friend and Jake...my newest book boyfriend.
