Wow!! I am a huge Mandala fan and this puts an entirely new twist on them. There are a couple of things I love most..the designs are in the book twice, once in white background and once on a black background. With the different backgrounds it makes the designs into something totally new. The paper is really nice too! The artist is pretty awesome and her designs are something brand new that you dont see in every day Mandala books.

Love-Love-Love this book! I LOVE all of Jennifer's work & was waiting anxiously for the release of this one! This book has both unique "Glowdalas" & mandalas on white paper too.

I LOVE this book! The mandalas are different and really fun to color, and the ones with the black backgrounds are totally awesome and look great when they're colored. And even the backs of the black background pages are black.

Love this book as well as the others by Jennifer Zimmermann. They are challenging, unique and fun

A brilliant book by Jennifer Zimmermann for adults & teens, with crisp professionally designed illustrations in both black & white pages - black pages both sides with white print & traditional white pages with black print. Plus little extras Jennifer has thoughtfully added. Worth every cent. Love it - Tina, Gold Coast, Australia

My favorite thing about this book is the wonderful images that are included on both a white and black background. This really changes the appearance of the same image. Since there are so many possible color combinations with each picture, they will be colored multiple times.
