Customer Reviews

David R. Morton, 42, has been airbrushing for 20 years and teaching for 14. In addition to regularly teaching a high school program, David has airbrushed t-shirts in dance clubs, had his own art department in a popular retail chain, taught for General Motors Ivy Tech State College, and even been hired as a muralist. Over the years David has developed a passion for getting people to rethink the airbrush and feels that his efforts will lead to greater respect for the medium in the fine art community.

I am a beginner in the truest sense of the word. I needed a few airbrush projects to follow along with that were a little more challenging than the basic exercises... I tend to learn best when doing something. Dont worry, I do the basic exercises each time I turn on the compressor. But this book is excellent. Likely the most underrated airbrush learning tool on . Why do I say this?Other 'top-rated'

books contain lots of information but lack the exercises to move you from 'informed newb' to an intermediate level airbrush artist. And yes, I have purchased most of them. I often found disappointment from a history lesson and lots of examples way too complex for a budding artist. Mr. Morton, you have done a wonderful job here. Thank you. I look forward to working through every page of this excellent guide.

Love it

Small and compact with a lot of tips.

Great step by step directions cool tips and tricks, well written and clear for many types of airbrush work.

It's a great basic book, not much I did not already know, but a good book just the same

A great starter book. And a good refresher

A good book for the beginner. It is a great place to start learning.
