Customer Reviews

Nice book

Book is in almost new condition. It contains all the information I was researching and more. Jacket was not included even though it showed in the ad. US Mail was a bit slow, but that's them and not you. Thanks

decent overview of vintage music boxes.

Lovely book about music boxes.

I collect antique music boxes and have several books on the subject. I would say that around 90% of this book is devoted to modern toys and there is mere lip service to the exquisite machines from which they were derived. I also found it personally insulting that he claims to include restoration. If I tried to restore a music box after his instructions I would end up with a pile of parts and their condition would be irreparable--more damage than help.

This book is not what I expected. The content is not very informative and it lacks any real knowledge of collecting music boxes.
