Customer Reviews

Over 30 of Joni's best known pieces are here, including music, guitar tabs and complete lyrics. No artwork, unfortunately, since Joni is well known as an artist as well as singer/songwriter. I am in love with Joni! She is certainly the voice of my generation (I am 5 years younger than she) but her music is ageless and appeals to all generations. Brava Joni! May your Father Time never be unkind.

Chords, melody and important lines and riffs in each tune. Useable. Good reference to use for starting an arrangement.

good enough for us but, i see the issue people are talking about.

As a music educator, I found the anthology to be well written. It's not cluttered, just pure, as it is with most of Joni's music. The spirit is there and it covers lots of ground. My only disappointment - no photos!

The music is Joni Mitchell, mostly earlier material. The notes are a little hard to read for older eyes.

Otherwise, I couldn't ask for a better addition to my musical library.

A simpler version of Joni's great songs. I can figure them out with regular tunings this way, then make my own arrangements.

Her great tunes, not great arrangements.

I adore this composer/singer/artist, and this book is the most comprehensive I've found of her songs. It came in great condition, came quickly, and I'm thrilled to own it.
