Synopsis

He promised to never leave me. But when I needed him the most, that was exactly what he did.

From Bestselling Authors Sloane Kennedy & Lucy Lennox comes an exciting new series about how a twist of fate can change everything...

He promised to never leave me. But when I needed him the most, that was exactly what he did.

Wilderness guide Xander Reed has spent fifteen years trying to forget the night he turned to his best friend in his darkest hour, only to find the young man who'd sworn to always have his back was turning his on Xander instead. Two thousand miles and fifteen years of building a new life in the quiet backcountry of the Rocky Mountains should have been enough to put the memory of Bennett Crawford out of his mind forever, but old wounds run deep and when Bennett suddenly reappears in his life as part of a wilderness expedition Xander is guiding, the scars he thought long healed break wide open.

I'd only ever wanted to protect Xander from getting hurt again. I never considered the one he needed protection from was me.

Bennett Crawford was faced with an impossible choice the night his best friend needed him. He chose wrong. As the only son of one of the wealthiest families in New England, he should have had the world at his feet, but losing his best friend at the tender age of fourteen changed everything. And even though Bennett's managed to hide behind a mask of contentment as he takes his place at his father's side in the family business, inside he's searching for the piece of himself that's been missing ever since Xander Reed walked out of his life. Bennett's only saving grace is his work with a group of inner city kids, and when he's given the chance to show the troubled teens that there's a bigger world out there waiting for them if they just have the courage to reach for it, he takes it. But when he steps off that bus for what was supposed to be a week of fun and adventure, he's instantly returned to the past when he discovers their expedition guide is none other than the boy he let go so long ago. Only, the soft-hearted, insecure little boy Bennett once knew is gone, and in his place is a brooding, bitter man who isn't interested in second chances. People leave. I know that now and nothing Bennett has to say to me will change anything.

All Bennett wants is another chance to show Xander that friendship was only the beginning. But when a stubborn Xander refuses to even hear him out, Bennett realizes he's going to need to fight dirty. Because now that he's found Xander again, he's not letting him go a second time.

Customer Reviews

This book was absolutely breathtakingly beautiful! I absolutely couldn't put it down. It was gripping and it pulled me in and made me FEEL what they felt, not surprising considering this book was written by two freaking amazing authors! I really loved the not only the main characters but also the secondaryÃfÂçÃ â -Ã â characters as well which each brought something new that was absolutely needed to make this story complete. The relationship between the two MC's was breathtaking. This story was so amazingly good that I honestly don't have enough words to describe how good it actually is! I definitely recommend this story and I can't wait for Aiden's story next.

I was eagerly waiting for this book and let me tell you, it was worth the wait. Lucy Lennox and Sloane Kennedy make one heck of a team. You will cry, laugh, worry, and even get mad while reading it. At first you are so focused on Xander and his pain. But as the story unfolds you begin to feel for all the characters well except for two. One of which is hardly mentioned so it's no big loss. I fell for all the boys here. Xander and Bennett were a given. But I didn't count on the others carving their little niche. I'm so glad we are getting Aiden's story but forget Jake. That guy is hurting and hiding a lot. I loved this book so much.

What great collaboration between two of the m/m genre's best writers! I just new it would be a hit, but it wasn't until I started reading yesterday afternoon that I knew what a perfect pair Lucy and Sloane make. For me, this book had all of the essential elements - great writers, an interesting, well thought out story plot, the right amount of angst, wonderful supporting characters and two hot MCs that make you want to love them from the very first page! I could not put this book down until I finished and now, I'm counting down the weeks until Aiden's story. Definitely one of the best stories I read this Summer.

Another awesome book by Sloane Kennedy and Lucy Lennox. In this book you meet your main characters Bennett and Xander. They meet at the tender age of 5 and become best friends. As time progresses as the boys age they are closer than ever yet the normal teenage struggles are trying to tear them apart. Does a Father's hatred destroy his sons first love? Can love overcome hate? Does it really matter if you are a boy and love another boy? Will a tragedy destroy the bond these young men feel? This book is a must read! Open this book and go on an unforgettable ride that spans decades.

I love it when two good authors team up. I have read both authors solo works and when I heard of them collaborating, I knew this book would not disappoint. And it doesn't. Both authors have distinctive styles and voices, however, it is hard to tell which author wrote which scenes. Ms Lennox writes with a light humour and Ms Kennedy with a deeper angst level, but together you get perfectly balanced, believable characters and story line. I can't wait for the next in the series and hopefully we'll see a bit more of Xander & Bennett in the next book too.

I have read these two authors individually and really enjoyed their work - together, they are a powerhouse. This first book for this series was a great read, but it left me wanting more and thankfully since this is book 1, there will be more. The characters were well written and the story was well crafted (I hope it is going to appear in an audible format, too). I want an head for Aiden! Well worth your time and money.

Xander and Bennett were an explosive kind of wonderful....I hated how they treated each other in the beginning, Xander was such a jerk, all because of things he thought he knew to be true. Bennett was hurting because he carried such a burden and was never given the chance to explain. Together

they realized the past was in the past and they needed to look toward the future. Highly recommended!

What a great start to a new series. Benny and Xander have known each other since they young. They grew up together and started to have feelings for each other. But never voiced their thoughts. Something horrible happened and years past before they meet again. And what a meeting! I really enjoyed this book, looking forward to the next one.
