If this was a \$2-3 book (including shipping) I would be happy enough, but at close to \$10 I expect it to not be substandard. Many pages (not all, about a third of the book perhaps) have no outside margin. Many are cut so close to the print you have to look at the word in the text (not just the guide word at the top of the page) to see if the word is complete--each word at the edge of one of these pages is hard to read. It is usable now, but will not be after some wear. I returned mine and will look for a different edition--or see if I can find out if the one I received was just messed up and I can just get a different one. Haven't done so yet, so don't know whether these are this poorly produced or mine was a fluke.

Still missing some words I expected to find...oxer, nonee and qin. But we keep a list in the back of the book of words like this that are acceptable in our club. Oxer is what horses jump over in equestrian competitions. Nonee is a tropical plant the juice of which is medicinal and widely used here. Qin is a stringed instrument from China. There may be others which we haven't discovered yet.

Very disappointed to learn this is a paperback upon opening the box. The paperback is offered for \$6.80 vs. the \$12.63 I paid for what I believed was a Hard Cover. You should specify in the description that this is a paperback. By the way the graphic for the paperback looks much smaller than the graphic for the \$12.63 version. Very misleading.

It's the best available but I wish there was a later edition since more words are now accepted for Scrabble.

I feel ripped off, since I paid \$13.99, and printed on the book, it's \$8.50 USA. Also, much smaller than I expected, only 7 x 4 inches. 1 and a half inches thick. This is something that I should have bought in person. I do like the bold type.

I play Words with friends and found this very helpful in finding words to play. I would recommend it to all Word players.

Will order again.

The print is quite small. It serves it's purpose.
