Great book for plan trips

Great help planning a trip to the northwest

I am so pleased with this book! It's layout is very simple and easy to follow. Trips are laid out with sights of interest and approximate time to explore each. There are recommendations for restaurants and sleeping options - including contact information for each so that it is a breeze to make arrangements. My husband and I are newly retired and are looking forward to exploring some new places in our beloved Pacific Northwest! This is a wonderful resource for locals as well as those who are newer to our beautiful region.

I love this book. I borrowed it from the public library first but fell in love with it. Since I hope to take it away with us anyway, I purchased it so I can mark it and 'really' use it for all its worth. There are great restaurant & lodging suggestions as well as so many various road trips all over California. Once you have this book, you won't need any others. It also comes in a decent size which isn't too large so it's handy for travel.
