**TOUR ITINERARY\*** Church of the Holy Sepulchre. For the Church of the Holy Sepulchre, which encloses the sites of Jesus's crucifixion and burial, we explore the changes that the structure has undergone through the ages in response to adversity and changing requirements. Specifically, we examine how the present church's architectural layout relates to those of the three earlier edifices that occupied the site: the enormous 4th century Constantinian church; the modest rebuilt 11th century Byzantine church; and the expanded 12th century Crusader church.\* Temple Mount. Crowning the Temple Mount, the iconic 7th century Dome of the Rock is one of the earliest surviving Islamic structures. We explore its history, architecture, decoration and political significance. Further, we profile the Temple Mount's other highlights: Al-Aqsa mosque, Dome of the Chain, Golden Gate and two Mamluk monuments.\* Western Wall. The Temple Mount's history far pre-dates Islam's presence on the scene. The Mount was the site of the three Jewish Temples, the first of which was built in 950 BCE. This guide discusses these temples — their histories and what they looked like — and profiles the only vestige of their existence, the Western Wall, the most sacred of Jewish religious sites.

## Customer Reviews

This is easy to read, but gives detailed information about some of the very special places in Jerusalem...Dome of the Rock and Church of the Holy Sepulchre, among others. The diagrams and descriptions are very easy to comprehend. I wish I had the pages with me in the church as that place was so crowded, it was hard to keep with our guide even though we had audio devices. I look forward to reading more of these books when we visit other places.
