## **Customer Reviews**

Of all the gifts my niece received at her baby shower, she really surprised me by being most excited by this book which was among several little things I gifted her. It was on her Baby Registry, and her love of all things Disney led her to exhale a squeal of delight when opening this. A real score for any Disney lover.

Oddest book ever. Would have liked to have seen consistency in the pictures being real life and cartoon. Daughter loves it but I'm not impressed.

Not impressed with this book. Disney characters are scattered throughout sometimes touching the object that you're trying to describe to your child causing confusion. There are also some objects without words associated to them.

Another great book for a young family with a new born.

My friend absolutely loved the book . It was intended for her newborn and her 4 year old claimed it as her own.

Must have for any baby library

Was as expected, would recommend.

A lot bigger than expected!! I love it!
