Customer Reviews

This seems to be the only available fold-out map of Boston on the market, which is why I got it---even though I have a GPS in my car and regularly use Google Maps online, it's nice to have a physical map in addition, in order to get more of a "lay of the land" sense of where things are in relation to each other. That said, the paper this map comes on is quite thin and fragile...I already have some tears along the fold lines after only a couple weeks of using it---it's not easy to unfold and refold at all. So Rand McNally, if you are reading this review, please consider using higher quality thicker paper or, ideally, offering a laminated version of this map---I would happily pay an

extra \$5 for something more durable. Overall, the visual formatting is adequate but not great...I feel like I should have bought a magnifying glass to use with this thing, because everything is really crammed together tightly, and the labelling of icons and neighborhoods is not very legible. But again, due to the lack of any other alternative I know of, I will just have to put up with this thing during my 3x a year visits.

Not detailed enough at all...never even took it with me to Boston.
