Customer Reviews

I gave it only 4 stars because I haven't actually seen the book myself. I had it mailed directly to my two year old nephew. He has a fascination for giraffes and I wanted to get him a giraffe book he would enjoy. My brother tells me that he loves the book and really enjoys the finger puppet that came with it. At the zoo, the giraffe ate out of his hand; so he likes to pretend the finger puppet is eating out of his hand also. So I'm very pleased with this purchase.

This is a GREAT book!! I bought it for my 6 month old, and my two older kids take turns reading the book to her...they LOVE to play with the puppet finger giraffe!! CUTE book!! The book is small....but, great size for little kids!! GREAT quality!!

Very entertaining for "little" ones - and "big" ones too!

Cute idea for a baby book. My 10 month old really likes the interaction with the finger puppet. Not

much to the "story", but that is not the point of this book. Well made and sturdy. It should easily last until he is 30...or until he grows bored of it...which will probably be next week. Still totally worth the money for some valuable daddy-son time.

My twins love these finger puppet books. They laugh when I read the story and make the giraffe move around. The books are the perfect size for small hands to look through too. They are board books so they can also withstand the toddler years!

My 3 and a half month old loves these puppet books. Great baby books!

No problems noted. Well received gift.

Well built cardboard story book, with cute little puppet attached. My grandson loves these puppet books! He watches and listens intensely to each one of these puppet books. He loved the first one so much I bought the three more with different stories and animals. He loves every single one!
