## Customer Reviews

Gave my other copy to a fellow gardener. Love the book!

Books came quickly and was pleased with their appearance. Great way to get rid of pests without the chemicals. As a resident of San Diego had saw him on our local news channel giving us these tips. So I know they work,

I loved the book. Unfortunately we have iguanas and they eat everything. They especially love my pepper plants. If you have any ideas please put them in the next edition. Thanks

Nothing new, you can basically get all the information in this book by doing a Google search.

Organized and effective suggestions for safe control of pests. Good Book.

Green solutions are offered for many kinds of garden pests. This is going to be a useful tool this season. Wish I had purchased this information sooner.

Full of good advice for the home gardener.

Helpful ideas.
