## **Customer Reviews**

Children are taught that they should tell the truth, no matter what. But is that how things really are? There's truth, and there's diplomacy. How much of truth is in diplomacy, and vice versa? What if a child isn't taught diplomacy? Does that make his world black and white? That seems to be the case for Bix Rivers, since he went from complete honesty to complete dishonesty after realizing that complete honesty doesn't always work. He doesn't understand that sometimes you have to fumble through the gray areas in order to get to where you're going. Jerome Foxworthy tries to explain it to him, but Bix just doesn't get it. I admire Bruce Brooks for bringing such intriguing questions to kids, and doing it through a fun and interesting story.
