Customer Reviews

PreSchool-Grade 1 "With a choppy narrative and an illogical flow of events, this book is likely to confuse beginning readers. For example, Johnny trades his seedlings for a pan, a ham, a shirt, and some dirt. The fact that apples eventually grow from these "baby" trees is not mentioned. A few pages later, Johnny abruptly "hands something shiny/to a hopping girl" who suddenly appears pictured in his arms holding an apple. Next, farmers enter the story: "At the end of the day/they can come inside/and bite into an apple/or a sweet apple pie." Youngsters must infer that fruit comes from Johnny's aforementioned trees, and not from the labor of the farmer's plows. Haverfield's watercolor illustrations depict golden scenes and a Caucasian cast of characters. Stick with versions of this tale by Patricia Demuth (Grosset & Dunlap, 1996) and Gwenyth Swain (Carolrhoda, 2001), books for beginning readers that are a bit more challenging but have longer formats that offer increased description and vocabulary to yield flowing narratives with contextual predictability." I use it with my Kindergarten students. It works well.

Great book for my grandson. He needed it for his school costume. It arrived on time and it was a great success

Great for preschoolers

Great story for our garden club to use with younger children during Arbor Day lessons. Nice illustrations and easy for younger students to grasp the concept of a tree growing from a small seed.

great book and great service
